Step 1) Cut the ball off of the head pin (60FI61-AS) and make a simple loop. Thread 77CR109 onto the wire and finish with a second loop to make a link. Attach link to the top of the crystal filigree (CR995-108).

Step 2) Add a 6mm jump ring (6FI221-AS) to each of the crystal drops (48CT109 and 48CT109-12).

Step 3) Attach the crystal drops to the crystal filigree (CR995-108) with the jump rings. The large drop (48CT109-12) will go in the bottom center of the filigree. Add a small drop (48CT109) to either side.

Step 4) Connect the dangle to the lever back earring (FI535-ST) with a 4mm jump ring (4FI221-AS). Repeat all steps to make a second earring.
